Art Unit: 1646

DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-7, 10, 11, and 16-29, drawn to compositions and methods of use of cyclic RGD peptides.

Group II, claim(s) 1-7, 12, 13, and 16-29, drawn to compositions and methods of use of cyclic KPT peptides.

Group III, claim(s) 1-7 and 15-29, drawn to compositions and methods of use of cyclic RKKP peptides.

Group IV, claim(s) 1-7, 14, and 16-29, drawn to compositions and methods of use of cyclic SRNLIDC peptides.

Group V, claim(s) 1-7, 8, 9, and 16-29, drawn to compositions and methods of use of M6P receptor-binding agents.

The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

These sequences are not interlinked either by their structures or by their origins. Consequently, although each represents an independent inventive solution to the problem posed, no common inventive concept exists among them.

This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

Application/Control Number: 09/806,837

Art Unit: 1646

- a) Liver fibrosis
- b) Kidney fibrosis
- c) Lung fibrosis
- d) Athereosclerosis
- e) Rheumatoid arthritis
- f) Crohn's disease
- g) Colitis
- h) Ulcerosa
- i) Glomerulonephritis
- i) Sepsis
- k) Tumor cell proliferation-associated pathology
- 1) Fibroblast proliferation-associated pathology
- m) Endothelial cell proliferation-associated pathology
- n) Osteoblast proliferation-associated pathology

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141.

The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: These diseases are not linked by cause, tissue origin, or method of treatment. Thus they lack a common special technical feature.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Application/Control Number: 09/806,837

Art Unit: 1646

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Janet L Andres whose telephone number is 703-305-0557. The examiner can normally be reached on M-F, 8:00-5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Yvonne Eyler can be reached on 703-308-6564. The fax phone numbers for the organization where this application or proceeding is assigned are 703-872-9306 for regular communications and 703-872-9307 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-308-0196.

Janet L. Andres, Ph.D.

Patent Examiner February 11, 2003
